### **Clinical Evaluation Rating Scale**

Rating	Independent Professional Practice	Knowledge, Skills & Attitudes	Overall Grade Computation
4	Almost never requires (<10% of the time) <ul style="list-style-type: none"> <li>• Direction</li> <li>• Guidance</li> <li>• Monitoring</li> <li>• Support</li> </ul>	Almost Always Exhibits (>90% of the time) <ul style="list-style-type: none"> <li>• A person-centered care focus, including family and/or important others</li> <li>• Accuracy, safety, &amp; skillfulness</li> <li>• Assertiveness and initiative</li> <li>• Efficiency and organization</li> <li>• An eagerness to learn</li> </ul>	Computation Process: Maximum score is 164 points. Add up all the points and divide by 164, then multiply by 100.  $\text{_____} \div 164 \times 100 = \text{Grade}$ $\text{_____}$
3	Occasionally requires (25% of the time) <ul style="list-style-type: none"> <li>• Direction</li> <li>• Guidance</li> <li>• Monitoring</li> <li>• Support</li> </ul>	Very Often Exhibits (75% of the time) <ul style="list-style-type: none"> <li>• A person-centered care focus, including family and/or important others</li> <li>• Accuracy, safety, &amp; skillfulness</li> <li>• Assertiveness and initiative</li> <li>• Efficiency and organization</li> <li>• An eagerness to learn</li> </ul>	Midterm is Pass/Fail. Any midterm evaluation receiving a failure will result in a performance plan for remainder of semester. A performance plan may be issued for any areas where a student scores 2 or less.
2	Intermittently requires (50% of the time) <ul style="list-style-type: none"> <li>• Direction</li> <li>• Guidance</li> <li>• Monitoring</li> <li>• Support</li> </ul>	Often Exhibits (50% of the time) <ul style="list-style-type: none"> <li>• A person-centered care focus, including family and/or important others</li> <li>• Accuracy, safety, &amp; skillfulness</li> <li>• Assertiveness and initiative</li> <li>• Efficiency and organization</li> <li>• An eagerness to learn</li> </ul>	The final (summative) evaluation will carry an additional 5-point deduction for every "1" a student receives in all areas.
1	Very often requires (75% of the time) <ul style="list-style-type: none"> <li>• Direction</li> <li>• Guidance</li> <li>• Monitoring</li> <li>• Support</li> </ul>	Occasionally Exhibits (25% of the time) <ul style="list-style-type: none"> <li>• A person-centered care focus, including family and/or important others</li> <li>• Accuracy, safety, &amp; skillfulness</li> <li>• Assertiveness and initiative</li> <li>• Efficiency and organization</li> <li>• An eagerness to learn</li> </ul>	

**Criteria marked with \*\*\* indicate critical knowledge, skills, and attitudes that directly relate to client safety. A minimum skill level of 2 is required at all times. If a 2 is not scored, the student could be placed on a performance plan in an attempt to improve the score.**

Faculty will provide comments when applicable.

***A 75% or greater on the final clinical evaluation must be earned to pass the course (SON OP 30.082).***
