Policy Retirement Process Policy

PURPOSE: The purpose of the Policy Retirement Process policy is to explain the process for retiring School of Nursing policies without loss of policy content. By retaining the most current version of the policy at the time the policy is retired, an ongoing list of previously published policies is maintained as evidence and for potential use/revision when the policy content may again become applicable.

REVIEW: All policies in the electronic Administration Handbook are reviewed on a staggered, even or odd year biennial review cycle. Final approval of the electronic Administration Handbook is by the Dean.
