SON OP 30.845 – Sexually Transmitted Infection Education Policy

PURPOSE
The purpose of the School of Nursing Sexually Transmitted Infection Education Policy and Procedure (SON OP) is to assure that all students who have been accepted to the Texas Tech University Health Sciences Center (SON) Traditional Undergraduate Program complete and demonstrate knowledge of sexually transmitted infections. The TTUHSC SON has the responsibility to align with the strategic plan of promoting health of the community.

REVIEW
The OP will be reviewed biennially by September 1 of each even numbered year (ENY) by the applicable Associate Dean/Department Chair, with recommendations for revisions forwarded to the Dean of the School of Nursing.

POLICY/PROCEDURE

1.0 Policy
Each student enrolled in the TTUHSC School of Nursing Traditional BSN Program will be required to complete basic training related to sexually transmitted infections during the first semester of acceptance.

2.0 Procedure
The student will demonstrate knowledge of sexually transmitted infections by completing an education module. The student will receive instructions via Sakai learning system. The student will have access to the education module one week prior to course start date in Sakai learning system. The training must be completed before the student can proceed to the course.

Failure to complete the training module will result in potential deductions on profession standards for didactic accountable for learning section for the course the module is included in.
